NON MAJIANG SET - The Majiang set is NON's version of the classic Chinese game. Made of layered white Corian and black walnut, all of the symbols have been simplified and engraved into the surface. The case is made from a solid piece of walnut with a precisely fitting Corian lid.

Corian, black walnut

NON REFLECTION VASE - This vase has a different proportion than most others. The shallow basin creates a reflective surface that mirrors the plant that it displays. Three necks hold a simple arrangement emerging from the water similar to a lily from a pond.

1" thick Corian, available in black and white

NON WALNUT AND POPLAR BOWLS - These bowls showcase the natural beauty of hardwood lumber. The process starts with a 2" thick rough cut slab that is milled to a smooth finish. A teardrop shaped depression is precisely machined into the surface using our computer-controlled mill and a natural oil finish is applied by hand.

Black walnut and poplar, each piece is unique
